- 2.1 The purpose of this Directive is to direct participants in the Namibia Interbank Settlement Systems (NISS) to implement straight-through-processing in their internal payments environment to ensure efficiency within the national payment system (NPS).

## **3. Position of the Bank**

- 3.1 The Bank considers straight-through-processing in the NISS environment as a key component in ensuring efficiency within the NPS, as it enables participants connecting to the NISS to process, confirm, clear, and settle NISS transactions in a shorter time, more cost effectively and with fewer errors. This forms a critical part of the NPS modernization journey towards faster and efficient payments.
- 3.2 Straight-through-processing also streamlines back-office activities related to NISS payments, leading to less errors, lower settlement risks, and reduces costs per transaction.
- 3.3 The Bank’s intention is therefore to enhance efficiency within the NPS by requiring all NISS participants to implement straight-through-processing within their payment environments facilitating NISS payments.
